

JOHN SAM DANIEL P

Full Stack Developer

johnsd2709@gmail.com | 9361296676 | linkedin.com/in/johnsamp | github.com/John-09

PROFESSIONAL SUMMARY

Full Stack Developer with 3 years of experience building scalable, production-grade web applications using TypeScript, React, Node.js, Express, PostgreSQL, and MySQL. Proven track record of optimizing frontend performance, designing RESTful APIs, and implementing role-based access control (RBAC). Experienced in Agile/cross-functional team collaboration, translating business requirements into maintainable technical solutions.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript, Redux, TanStack Query, Ant Design, Tailwind CSS, shadcn/ui

Backend: Node.js, Express.js, REST API Design, TypeORM, Prisma

Databases: PostgreSQL, MySQL, Redis

Cloud & Tools: AWS (EC2, S3), Git, Postman, PgAdmin, Jira

PROFESSIONAL EXPERIENCE

Full Stack Developer | KalavAI Digital Pvt. Ltd. – The Viswa Group *Chennai, India* | Jan 2023 – Mar 2026

- Led frontend development of a multi-location Laboratory Information Management System (LIMS), collaborating with lab stakeholders to translate operational workflows into scalable technical solutions.
- Architected modular **React + TypeScript** frontend using component-driven design, improving application performance by **40%** and accelerating release cycles by **30%**.
- Designed state management architecture using **Redux and TanStack Query**, reducing production state bugs by 60% and improving API data consistency across modules.
- Built a **reusable UI component** library, reducing UI development effort by **50%** and ensuring consistent UX across the platform.
- Developed secure RESTful backend services using **Node.js, Express, TypeORM, and PostgreSQL**, improving API response times by **40%** and implementing scalable RBAC authorization.
- Optimized server-state caching and API usage patterns, reducing redundant network calls by **35%** and improving frontend load time by **20%**.

PROJECTS

Enterprise Analytics Dashboard | *React, TypeScript, Node.js, PostgreSQL*

- Built a full-stack enterprise dashboard with **JWT-based authentication** and **role-based access control (RBAC)**.
- Developed RESTful APIs using **Node.js, Express, TypeORM, and PostgreSQL** for analytics and business data processing.
- Implemented real-time **KPI dashboards** with optimized SQL queries and regional trend analysis.
- Added real-time **notification system** and **customizable dashboard** layouts with persisted user preferences.

Tripxing | *Node.js, Prisma, PostgreSQL, React*

- Built scalable backend using **Node.js and PostgreSQL** for hotel listings, inquiries, and subscription management, achieving 40% faster query performance.
- Developed React Admin Dashboard for hotel and customer management, improving internal workflow efficiency by **50%**.

EDUCATION

B.E. Computer Science *CGPA: 8.5*

KCG College of Technology, Chennai
